

BlueChart™ Availability Catalogue
Atlantic Coverage 2008

BlueChart®

Availability Catalogue 2008

BlueChart® cartography is GARMIN's exclusive marine cartography. It complements GARMIN's line of handheld mapping products and marine chartplotters. This line of cartography products is designed to provide interactive viewing of detailed nautical chart data, thereby providing navigators with innovative object-oriented cartography. These detailed electronic nautical charts look just like paper charts when displayed on your GARMIN chartplotter. Descriptive details for features typically found on nautical charts can easily be viewed with a simple key press. Cursor movements over the chart provide descriptions for contour depths, chart number, navaid name, and much more.

BlueChart data will include shaded depth contours, inter-tidal zones, spot soundings, wrecks, nav aids, port plans, restricted areas, cable areas, anchorages, and more. Additionally, BlueCharts include information from the paper chart used in the digitization process such as chart number, name, scale, revision date, and Notice-to-Mariners date. Paired with any of our new plotters, this cartography provides detail of paper charts, giving you twice the coverage area of typical charts for half the price.

BlueChart®

BlueChart is offered in three different formats and different medias:

- Traditional BlueCharts, on proprietary Garmin cards, microSD cards and CD-ROM
- BlueChart g2, for g2 compatible plotters only, on proprietary Garmin cards
- BlueChart g2 Vision, for g2 Vision compatible plotters only, on SD cards

Help us better support you by completing our on-line registration today! Have the ID code of your BlueChart data card handy, and connect to our website www.garmin.co.uk. Look for the "myGarmin" link on the home page. Why should you register your BlueChart? By registering your purchase you are assured of notification of product updates and/or information on new products.

 BlueChart® Traditional

BlueChart works in seamless integration with the plotters featured. These detailed electronic nautical charts look just like paper charts, when displayed on your Garmin chartplotter. Features include shading between depth contours, spot soundings, nav aids, port plans, wrecks, obstructions, intertidal zones, restricted areas and more. BlueChart cartography is object-oriented, which means you can pan to an object on the map and instantly view information about that point. BlueChart cartography is offered in three forms – pre-programmed data cards, micro SD cards for X-series handhelds and MapSource CD-ROMs. MapSource CDs contain detailed maps that can be downloaded to blank data cards or directly to units with PC interfaces.

 BlueChart® g2

BlueChart g2 features smoother layering and better integration of map graphics, for easy panning, scrolling and zooming. Richer colours and shading enable easier interpretation and improved visibility. BlueChart g2 also adds more detail on land features, coastal roadways, marine services and municipal areas and offers improved IALA navaid symbology. The user has a choice of new Mariner's View map perspective, or the familiar 2D direct-overhead view – to make chart reading and orientation easier. Like all BlueChart cartography, g2 is styled to match the appearance of paper charts when displayed on your Garmin chartplotter. Features include shading between depth contours, spot soundings, nav aids, port plans, wrecks, obstructions, intertidal zones, restricted areas and more.

 BlueChart® g2 Vision™

BlueChart g2 Vision advanced charting from Garmin gives mariners even better vision with 3D perspectives above and below the waterline. The unique Garmin Auto Guidance technology swiftly plots a suggested best route based on chart information at the press of a button, avoiding the need for manual course entry. Available on pre-programmed SD cards, BlueChart g2 Vision simply slots into the latest Garmin chartplotters to greatly extend the graphical capabilities of your equipment.

- BlueChart g2 Vision cards provide:
- Auto Guidance technology to find the best course for navigation
 - High-resolution satellite imagery
 - Aerial reference photography to provide 'real-world' images of ports, harbours and marinas
 - Mariner's Eye View 3D perspective of chart information for a quick, reliable and easy position fix
 - Fish Eye View 3D perspective below the water line to display floor contours based on bathymetric charting data
 - Tidal graphs, current arrows, marine services, coastal roads and points of interest detail
 - Detailed bathymetric fishing charts to emphasise bottom contours and depth soundings while removing selected navigation detail from the map for a sharper definition of the sea floor

▶ BlueChart™ Programs

Garmin believes that updates are an extremely critical issue for marine cartography, and we are committed to providing our customers with regular semi-annual updates. As updates occur, we will make every effort to ensure that the areas of coverage for a given data card remain the same. Updates may include new data or NTM (Notice To Mariners) changes. A chart list with notice of NTM changes can be viewed on the details page for each data card available on the Garmin website.

Warranty Information
Your BlueChart data card should be examined for damage immediately upon receipt. Garmin will accept returned BlueChart's within 10 days of the purchase date if the BlueChart is found to be defective.

Update/Trade In Program
Garmin will strive to offer semi-annual updates. If you own a BlueChart that is outdated or would like to purchase a BlueChart for a different coverage area, Garmin offers:

- Update Program (All formats): return your old BlueChart card, any format, and receive a 50% discount toward Garmin's list price for any region that Garmin offers, regardless of size, for the same format (ex. Traditional for Traditional, etc.). Only one update or trade-in per new BlueChart card is allowed.
- Upgrade from Traditional to BlueChart g2: return your traditional BlueChart data card, and receive a 30% discount toward Garmin's list price on any BlueChart g2 that Garmin offers, regardless of size. Only one update or trade-in per new BlueChart g2 is allowed.
- Upgrade to BlueChart g2 Vision: return any traditional, micro SD or g2 data card and receive a 25% discount toward Garmin's list price on any BlueChart g2 Vision that Garmin offers, regardless of size. Only one update or trade-in per new BlueChart g2 Vision is allowed.

To return a BlueChart for update, contact your local dealer or country distributor.

Upgrading from G-Charts to BlueCharts
If you've previously used Garmin's G-Chart® line of electronic maps, please note that G-Charts are now out of production and support. G-Charts will not work in our BlueChart-compatible chartplotter product line. The BlueChart line provides added flexibility, greater coverage, and offers you cost savings. To encourage current Garmin customers to upgrade to our new BlueChart line, Garmin provides a 25% discount on new BlueChart data cards for those end-users who return an old G-Chart. This is a one-for-one discount. To verify compatibility with BlueChart data, you will be asked to present proof of a new chartplotter purchase.

Please note: BlueCharts are not compatible with older Garmin models including: GPSMAP 130/135/175/180/185/210/215/220/225/230/235

▶ How to read your Garmin BlueChart™ I.D. Code

All BlueChart cartridges are identified by a seven-digit I.D. code. This identification system uses the following convention:

Region (xx) codes include:

AE	Asia, East (Japan, China, Indonesia, etc.)
AW	Asia, West
EU	Europe (includes all Mediterranean Sea)
SA	South America
AF	Africa
CA	Canada
PC	Pacific Ocean (Australia, New Zealand, etc.)
US	United States and the Caribbean

Size of coverage (z) codes include:

S	Small
R	Regular
L	Large

WARNING:

No national hydrographic office and their licensors have verified the information in this product or quality assured it, and none accept liability for the accuracy of reproduction or any modifications made thereafter. No national hydrographic office and their licensors makes any warranties or representations, express or implied, with respect to this product. No national hydrographic office warrants that the product satisfies national or international regulations regarding the use of the appropriate products for navigation or that it contains the latest hydrographic information available.

WARNING:

All charts are digitized directly from existing government and other official charts and should not be used solely for navigation. Digital charts are intended to be used as an aid to traditional navigational charts, not as a replacement. Only official government charts and notices to mariners contain all information needed for the safety of navigation, and as always, the captain is responsible for their prudent use. A prudent navigator never relies on any single source of navigational information. Garmin strives to provide its customers with the most economical, accurate and up-to-date electronic maps available. However, features are continually changing, so the data may not reflect the latest modifications and/or additions in your area. Garmin makes no warranty as to the accuracy or completeness of the map data.

DISCLAIMER:

This reproduction, partial or complete, of any National Geospatial-Intelligence Agency (NGA), National Imagery and Mapping Agency (NIMA) or Defense Mapping Agency (DMA) product, information or data is not approved, authorized or endorsed by the Secretary of Defense, the Director of Central Intelligence, the Director, NGA or any other element of the US Government. The US Government and NGA accept no liability for the accuracy or quality of this reproduction or the use of any NGA, NIMA or DMA products, information or data.

WARNING:

Garmin BlueChart data and bottom information are for navigation reference only, as bottom conditions are continually changing. This product is for general reference.

WARNING:

Some of the information in this product may have been produced, in part or whole, from withdrawn national hydrographic office products. New charts and/or NTM corrections will render this product obsolete and inaccurate.

WARNING:

The Great Barrier Reef Marine Park Authority ("the Authority") does not check the information in this product and accepts no liability for the accuracy of copying or for any modifications that may have been made to the information which it has supplied. Use of and entry to the Great Barrier Reef Marine Park is controlled by the Great Barrier Reef Marine Park Act 1975 (Cth) ("the Act"). Penalties apply for use of or entry to a zone for a purpose other than for a purpose permitted under the Great Barrier Reef Marine Park Zoning Plan 2003 ("the Zoning Plan") prepared by the Authority pursuant to section 32 of the Act. This product does not contain all information concerning permitted use or entry under the Zoning Plan. For purposes of use of or entry to the Great Barrier Reef Marine Park, this product should only be used in conjunction with the Zoning Plan and the Great Barrier Reef Marine Park Regulations 1983 (Cth). For purposes of navigation, users should consult official navigation charts released by relevant government authorities.

WARNING:

The Licensee is hereby advised of the Canadian carriage regulations applicable to Canadian ships in all waters and to all ships in waters under Canadian jurisdiction which requires the master and owner of every ship to: have on board, in respect of each area in which the ship is to be navigated, the most recent editions of the charts, documents; or to have sufficient knowledge of specific information, such that safe and efficient navigation in the area where the ship is to be navigated is not compromised.

WARNING:

The tide and current predictions derived from this software are not to replace the Canadian Tide and Current Tables, which are required under the Charts and Nautical Publications Regulations of the Canada Shipping Act and which must be used for navigation within Canadian waters. Official Canadian Tide and Current Tables are available from authorized chart dealers. For a complete list of dealers in your area, please contact:

Chart Distribution Office
Canadian Hydrographic Service
615 Booth Street
Ottawa, Ontario, K1A 0E6
Telephone: (613) 998-4931

This is a legal agreement between you and DigitalGlobe, Inc ("DigitalGlobe"). The aerial, satellite imagery, real estate parcel attribute data provided by DigitalGlobe, and other associated information provided by DigitalGlobe ("Information") are provided by and are the copyrighted property of DigitalGlobe and/or its licensors. By accessing the Information you agree to these terms and DigitalGlobe grants you a perpetual, non-exclusive, non-transferable license to use the Information, as further set forth below.

1. SCOPE OF USE: You agree to use Information for solely personal use, and not for resale purposes nor for service bureau, time-sharing or other similar purposes unless explicitly permitted in writing by DigitalGlobe to do so.

2. RESTRICTIONS: Without limiting the foregoing, you may not (a) sublicense, transfer, assign, rent, lease, publish or otherwise convey the Information, or any right with respect thereto, to any Third Party unless such party is conducting or performing work strictly on your behalf for a limited time; (b) disassemble, decompile or otherwise reverse engineer all or any portion of the Information; (c) remove from the Information, or alter, any of the trademarks, trade names, logos, patent or copyright notices or other proprietary notices or markings, or add any other notices or markings to the Information.

3. OWNERSHIP: The Information is licensed, not sold, and you agree that the Information, and all intellectual property and proprietary rights therein are owned by DigitalGlobe and /or its licensors. DigitalGlobe and/or its licensors reserves title and all right and interests in and to the Information not expressly granted to You in Section 1 (License Grant), including without limitation all patent rights, copyrights, trademarks, trade names, trade secrets and other intellectual property and proprietary rights. All rights not expressly granted are reserved by DigitalGlobe.

4. COPYRIGHT: The Information is the copyrighted property of DigitalGlobe and/or its licensors. You agree not to remove any copyright, trademark or other notices provided with the Information.

5. NO WARRANTY: All Information is provided to you "as is" and you agree to use it at your own risk. DigitalGlobe and its licensors (and their licensors and suppliers) make no guarantees, representations or warranties of any kind, express or implied, arising by law or otherwise, regarding the Information, including but not limited to, warranties of title, content, quality, accuracy, completeness, effectiveness, reliability, fitness for a particular purpose, usefulness, use or results to be obtained from Information, or that the Information will be error-free.

6. DISCLAIMER OF WARRANTY: DIGITALGLOBE AND ITS LICENSORS (INCLUDING THEIR LICENSORS AND SUPPLIERS) DISCLAIM ANY WARRANTIES, EXPRESS OR IMPLIED, OF QUALITY, PERFORMANCE, MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE OR NON-INFRINGEMENT. Some States, Territories and Countries do not allow certain warranty exclusions, so to that extent the above exclusion may not apply to you.

7. DISCLAIMER OF LIABILITY: DIGITALGLOBE AND ITS LICENSORS (INCLUDING THEIR LICENSORS AND SUPPLIERS) SHALL NOT BE LIABLE TO YOU: IN RESPECT OF ANY CLAIM, DEMAND OR ACTION, IRRESPECTIVE OF THE NATURE OF THE CAUSE OF THE CLAIM, DEMAND OR ACTION ALLEGING ANY LOSS, INJURY OR DAMAGES, DIRECT OR INDIRECT, WHICH MAY RESULT FROM THE USE OR POSSESSION OF THE INFORMATION; OR FOR ANY LOSS OF PROFIT, REVENUE, CONTRACTS OR SAVINGS, OR ANY OTHER DIRECT, INDIRECT, INCIDENTAL, SPECIAL OR CONSEQUENTIAL DAMAGES ARISING OUT OF YOUR USE OF OR INABILITY TO USE THE INFORMATION, OR ANY DEFECT IN THE INFORMATION, OR THE BREACH OF THESE TERMS OR CONDITIONS, WHETHER IN AN ACTION IN CONTRACT OR TORT OR BASED ON A WARRANTY, EVEN IF DIGITALGLOBE OR ITS LICENSORS HAVE BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES. Some States, Territories and Countries do not allow certain liability exclusions or damages limitations, so to that extent the above may not apply to you.

8. EXPORT CONTROL: You agree and acknowledge that the Information are subject to U.S. export control law, and You will comply with all applicable laws and regulations in Your use of the Information under this Agreement, including without limitation all export laws and regulations of the U.S. government.

9. U.S. GOVERNMENT END USERS: The Information is licensed to the U. S. Government with the "commercial rights" set forth herein.

10. ENTIRE AGREEMENT: These terms and conditions constitute the entire agreement between DigitalGlobe (and its licensors, including their licensors and suppliers) and you pertaining to the subject matter hereof, and supersedes in its entirety any and all written or oral agreements previously existing between us with respect to such subject matter.

11. GOVERNING LAW: The above terms and conditions shall be governed by the laws of the State of Colorado. You agree to submit to binding arbitration in Denver (City), Colorado (State), pursuant to the for any and all disputes, claims and actions arising from or in connection with the Information provided to you hereunder.
